

Vets 4 Vets Welfare Outreach

Vets 4 Vets of Archuleta County would like to offer to its members a way to seek help when you feel you need someone to check up on you from time to time. Perhaps you have a medical need and could use a little help getting to an appointment. Perhaps you live alone and could use a phone call at times you decide. Maybe you need a prescription picked up? That is what we would like to do for you. Please complete the basic information below if you would like us to help you. This is a new program so we will learn as we go. It may not be possible to help in some circumstances, but we want to help where we can.

Name: _____

Address: _____

Phone: _____

What could you use help with? _____

If you could use a phone call sometimes, when? _____
